E-mail: valter.pasanen@hannessnellman.com

Languages: English, Swedish, Finnish

Valter works as a legal AI analyst in the Legal Tech Team at Hannes Snellman. He joined the team in August 2022 as a tech trainee and, after a year of valuable contributions, transitioned into a full-time role as a legal AI analyst.

Valter's primary focus is the innovative application of AI at Hannes Snellman. He explores new and creative ways to leverage AI overall and in specific cases, drawing on his extensive knowledge of ICT law gained during his LL.M. studies in Norway. His studies encompassed a wide range of topics, including robotics law, AI law, internet governance, cybersecurity, legal tech, and programming for lawyers.

During his time at Hannes Snellman, Valter has led projects, rotated into the M&A Team to learn valuable skills, and contributed to coding initiatives such as the Digital Decade website.
